OVERVIEW OF THE CDBG PROGRAM

PROGRAM HISTORY

The Community Development Block Grant (CDBG) Program is authorized under Title I of the Housing and Community Development Act of 1974 and is administered by the U.S. Department of Housing and Urban Development.

CDBG grew out of the consolidation of eight programs under which communities competed nationally for funds. The consolidated programs were:

- Open Space
- Urban Renewal
- Neighborhood Development Program grants
- Historic Preservation grants
- Model Cities supplemental grants
- Public Facilities loans
- Neighborhood Facilities grants and
- Water and Sewer grants

PRIMARY CDBG OBJECTIVE

The primary objective of Title I of the Housing and Community Development Act of 1974 is the development of viable urban communities by providing decent housing, a suitable living environment, and expanded economic opportunities for persons of low and moderate income.

To achieve these goals, the CDBG regulations outline eligible activities and the national objectives that each activity must meet. As recipients of CDBG funds, Canton Township is charged with ensuring that these requirements are met and reporting their progress in achieving those requirements through quarterly and annual reports to the Housing & Community Development Department.

ELIGIBLE CDBG ACTIVITIES

CDBG offers a high level of flexibility in choosing programs and activities. Canton Township selects activities that best meet the needs of the community, in accordance with the national objectives and requirements of the CDBG Program.

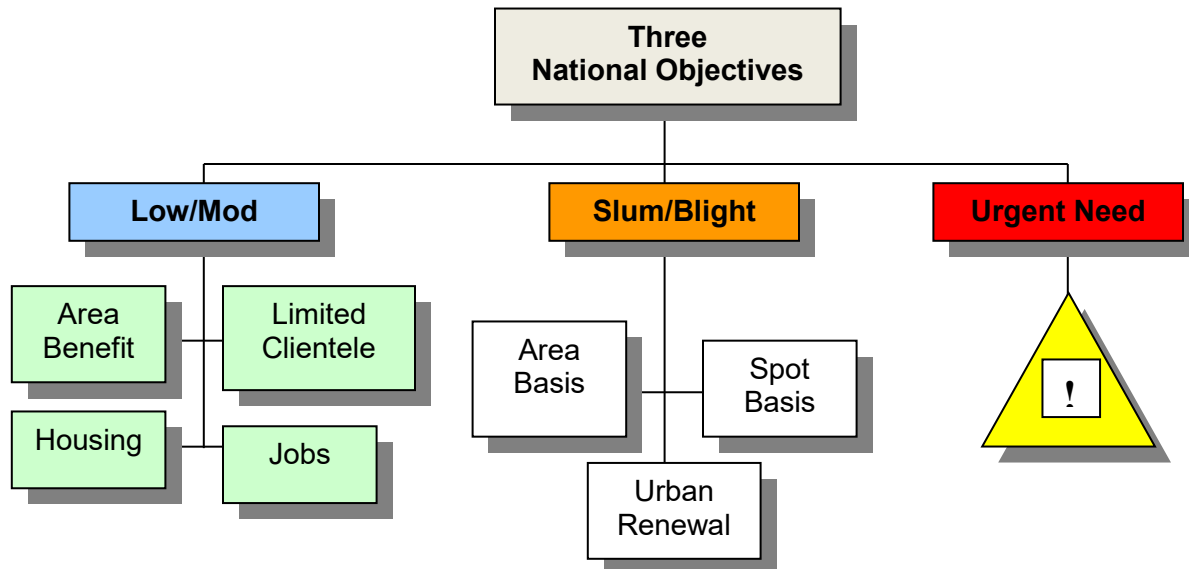

CDBG funds may be used for:

- ❖ Housing
- ❖ Public Facilities and Improvements
- ❖ Economic Development
- ❖ Public Services

NATIONAL OBJECTIVES OF CDBG

Canton Township is responsible for assuring that each eligible activity meets one of three national objectives:

- Benefit low and moderate income people
- Aid in the prevention of slum and blight
- Meet a need having a particular urgency (urgent need)

BENEFIT LOW and MODERATE-INCOME PERSONS (Low/Mod)

Under this objective, CDBG-assisted activities must benefit low and moderate-income persons using one of the following categories:

- Area benefit activities
- Limited clientele activities
- Housing activities
- Job creation or retention activities

Area Benefit

Area benefit is the most commonly used category for basic activities. It is an activity that benefits all residents in a particular area, where at least 51% of the residents are low-and moderate-income (LMI) persons.

- The service area must be primarily residential and the activity must meet the identified needs of low and moderate-income persons.

Area benefit activity examples include street improvements, water and sewer lines, neighborhood facilities, and facade improvements in neighborhood commercial districts.

Limited Clientele

This is an activity that benefits a limited number of people as long as at least 51% of those served have low to moderate incomes. These activities must:

- Benefit a clientele generally presumed to be principally low to moderate income; or
- Require documentation on family size and income in order to show that at least 51% of the clientele are of low to moderate income; or
- Have income eligibility requirements limiting the activity to low to moderate income persons; or
- Be of a nature and location that it can be concluded that primary clients are low to moderate income residents.
- Removal of architectural barriers to improve mobility for elderly persons or the severely disabled may also qualify under the limited clientele national objective.

Limited Clientele categories include: Homeless Persons, Seniors, Domestic Violence Victims, Persons Living with AIDS, Migrant Workers, Illiterate Adults, and Severely Disabled Adults.

Examples of Limited Clientele Projects include: Facilities for Senior Services, Homelessness Services, and Domestic Violence Programs.

Elimination of Slum and Blight

These are activities that help to prevent or eliminate slums and blighted conditions.

The activities must meet the criteria of one of the following categories:

- Prevent or eliminate slum and blight on an area basis.
Examples include assistance to commercial or industrial businesses, public facilities or improvements, and code enforcement.
- Prevent or eliminate slum and blight on a spot basis. These are activities that eliminate specific conditions of blight or physical decay on a spot basis not located in a slum or blighted area.
Examples include elimination of faulty wiring, falling plaster, or conditions that are detrimental to all potential occupants; historic preservation of a public facility; and demolition of a vacant, deteriorated building.

Urgent Need

Use of this category is extremely rare. It is designed only for activities that alleviate emergency conditions resulting from natural disasters or similar emergencies.

Income Limits

The median family income is calculated for each metropolitan and non-metropolitan area using the Fair Market Rent area definitions applied in the Section 8 Housing Choice Voucher Program. These income limits are for use in determining if your proposed clientele are eligible for CDBG assistance. The 2023 rate has not been determined as of 3/02/2023. 2023 rates will be provided at contract award.

Fiscal Year 2022 HUD Median Income for Canton Township was \$89,800.

FY 2022 Income Limit Area	Median Income	FY 2022 Income Limit Category	Persons in Family							
			1	2	3	4	5	6	7	8
Wayne County	\$89,800	Very Low (50%) Income Limits (\$)	31,350	35,800	40,300	44,750	48,350	51,950	55,500	59,400
		Extremely Low Income Limits (\$)*	18,800	21,500	24,200	27,750	32,470	37,190	41,910	46,430
		Low (80%) Income Limits (\$)	50,150	57,300	64,450	71,600	77,350	83,100	88,800	94,500

AFFORDABLE HOUSING

CDBG funds may be used to assist existing homeowners with the repair, rehabilitation or reconstruction of owner-occupied units. Grantees have the flexibility under the CDBG Program to design repair and rehabilitation programs that meet the needs of their residents. Examples of the types of local programs that may be funded include:

Eligible Activities

- Substantial rehabilitation which brings the property up to local codes and standards.
- Energy efficiency programs including insulation, new windows, and doors.
- Providing handicapped accessibility through the installation of ramps and grab bars.
- Emergency repair for certain elements of a house such as a leaking roof.
- Weatherization programs designed to improve a house's ability to withstand the elements such as insulation and weather stripping.
- Other housing activities include: property acquisition or rehabilitation of property for permanent housing, conversion of non-residential structures into permanent housing, and new housing construction by a community-based development organization (CBDO).

Documenting National Objectives for Housing

Low-Mod Benefit

- LMI persons must occupy structures with one unit. If the structure contains more than one unit, at least 51% must be LMI occupied.

Eliminating Slum and Blight

If a rehab activity does not directly benefit low/mod persons, it may qualify under the slum/blight national objective.

The requirements for meeting the slum/blight national objective under the Area Basis criteria include:

- The area delineated by the grantee meets a definition of a slum, blighted, deteriorated, or deteriorating area under state or local law.
- There are a substantial number of deteriorated or deteriorating buildings throughout the area.
- The activity addresses one or more of the conditions that contribute or contributed to the deterioration of the area.

The requirements for meeting the slum/blight national objective under the Spot Basis criteria include:

- The rehab activity must eliminate specific conditions of blight or physical decay on a spot basis.
- The rehab must remove only those conditions that are detrimental to public health and safety.

ECONOMIC DEVELOPMENT

CDBG funds may be used to undertake certain economic development activities. Job training and job placement are defined as a *public service* and are not eligible under CDBG Economic Development Regulations.

Eligible Activities

- Assisting a *private, for-profit business* (e.g., loans, grants, interest subsidies) for the specific purpose of creating jobs (570.203(b));
- Job training, placement and other types of services are eligible as for-profit business assistance or building acquisition/rehab/construction (see 570.203 (a) and (b) above);
- Loans and technical assistance/training to persons owning or developing a micro-enterprise, (defined as a commercial enterprise that has five or fewer employees, one or more of whom owns the enterprise) (570.201(o));
- Programs to assist persons who want to own or develop a micro-enterprise;

Documenting National Objectives for Economic Development

Area Benefit

In order to qualify under the area benefit criteria, the economic development activity must benefit all residents in a particular area. In addition:

- At least 51% of the residents must be low- and moderate-income (LMI) persons;
- The service area must be primarily residential; and
- The activity must meet the identified needs of low—and moderate-income persons (LMI).

Job Creation/Retention

These are eligible activities designed to create or retain permanent jobs, at least 51% of which (computed on a full-time equivalent basis) will be made available to or held by LMI persons. The following requirements must be met for jobs to be considered created or retained.

- If grantees fund activities which *create* jobs, there must be documentation indicating that at least 51% of the jobs will be held by, or made available to, LMI persons.
- For funded activities which retain jobs, there must be sufficient information documenting that the jobs would have been lost without the CDBG assistance and that one or both of the following applies to at least 51% of the jobs:
 - ✓ The job is held by a low- or moderate-income person.
 - ✓ The job can reasonably be expected to turn over within the following two years and steps will be taken to ensure that the job will be filled by, or made available to, a low- or moderate-income person.

The following requirements apply for jobs to be considered available to or held by low and moderate income persons.

- Created or retained jobs are only considered to be available to low- or moderate-income persons when:
 - ✓ Special skills that can only be acquired with substantial training, work experience, or education beyond high school are not a prerequisite to fill such jobs, or the business agrees to hire unqualified persons and provide training; and

- ✓ The recipient and the assisted business take actions to ensure that LMI persons receive first consideration for filling such jobs.
- Created or retained jobs are only considered to be held by low- or moderate-income persons when the job is actually held by a LMI person.

Limited Clientele

Individuals carrying out micro-enterprise assistance activities must be low to moderate income, and therefore eligible under the limited clientele objective.

PUBLIC FACILITIES

The acquisition, construction, reconstruction, rehabilitation or installation of public facilities and improvements is an eligible activity under CDBG and can be carried out by Canton Township or a sub-recipient nonprofit organization.

Eligible Activities

- Infrastructure improvements (generally construction or installation)
- Neighborhood facilities (e.g., recreational facilities, parks, playgrounds); and
- Facilities for persons with special needs (e.g., facilities for the homeless or nursing homes or group homes for the disabled)

Eligible costs include:

- Energy efficiency improvements;
- Handicapped accessibility improvements;
- Architectural design features and other treatments aimed at improving safety, function, and aesthetic quality.

Documenting National Objectives for Public Facilities

Area Benefit

CDBG funded public improvements will typically be categorized as an area benefit activity. Under the area benefit criteria, the public facility must benefit all residents of an area where at least 51% of the residents have low or moderate incomes. The area does not have to be the same as census tract borders, but must be primarily residential.

Limited Clientele

Public facilities funded by CDBG may sometimes qualify under the limited clientele criteria because the facility will benefit a specific targeted group of people, of which at least 51% must have low or moderate incomes.

Public facilities such as homeless shelters or group homes for persons with special needs are two examples that qualify under the limited clientele criteria. The populations served by these facilities are populations that are presumed to be low- and moderate income.

PUBLIC SERVICE

Eligible Activities

CDBG regulations are very broad and allow the use of grant funds for a wide range of public service activities.

Documenting National Objectives for Public Services

Public Service activities must be able to document that the majority of their clients earn less than 80% of the median income (see the income table in the first section of this application). Documentation depends on the activity. For most activities, agencies will be required to maintain income verification forms for each of their clients; however other forms of documentation are acceptable. If you have questions about how to meet this requirement, please contact Mike Sheppard.

Public Service Grants

- Agencies or organizations must apply each year
- Grants will be awarded to programs that:
- a. Exhibit professional management of CDBG funds and compliance with administrative requirements
 - b. Meet performance benchmarks identified in the contract scope of work
 - c. Report accomplishments accurately and in a timely manner
 - d. Demonstrate the capacity to sustain the program
 - e. Increase the level of service each year

**CANTON TOWNSHIP CONSOLIDATED PLAN
GOALS AND OBJECTIVES: JULY 1, 2021 - JUNE 30, 2025**

Canton Township has established goals and objectives for its CDBG program. These priority issues are focused on the desire to provide decent housing, provide a suitable living environment and expand economic opportunities. The community shall commit and spend funds and support projects and programs that achieve these strategies. The objectives identified below are not all inclusive and additional objectives developed by applicants are acceptable if the objective directly supports the goal.

Housing needs:

Goal: Provide safe, affordable, and accessible housing to the residents of Canton Township.

- Objective 1: To increase homeownership rehabilitation opportunities for low and moderate income households.
- Objective 2: Canton Township will work with nonprofit and government agencies that provide home buyer counseling and down payment assistance programs.
- Objective 3: Canton Township will work with nonprofit and for-profit housing developers, lenders, and other partners to build new, or acquire and rehabilitate, housing for low and moderate income households.
- Objective 4: Canton shall continue to work with tenants and landlords regarding the provision of decent, safe and sanitary rental housing that complies with appropriate state and local building codes.

Homeless

Goal: Help to prevent and reduce homelessness within Canton Township.

- Objective 1: Canton shall continue to work and support homelessness efforts identified within the Wayne County Continuum of Care Plan as approved and supported by HUD.

Non-Housing Community Development.

Community and Economic Development

Goal: Enhance the living environment for persons in low- and moderate-income areas through public improvement activities, public service programs, and elimination of blight.

- Objective 1: Canton Township will continue to work with Growth Works, government agencies, stakeholders, and other service agencies to solicit tenants/programs for the Canton Human Service Center.
- Objective 2: Canton Township will continue to provide and financially support public/human service activities that benefit low and moderate income residents. This includes, but is not limited to, the senior citizen and handicapped transportation programs.
- Objective 3: Canton Township will continue to work with companies and businesses on the provision of jobs, especially those that serve low and moderate income person.
- Objective 4: Identify, prioritize, and upgrade public facilities, Township parks, streets, sidewalks and related infrastructure, particularly in eligible Community Development Block Grant areas and through the elimination of ADA barriers.
- Objective 5: Eliminate blight within in eligible Community Development Block Grant areas and on a spot blight basis.
- Objective 6: Support the preservation or restoration of structures of historical significance.

Non-Homeless Special Needs

Goal: Promote a suitable living environment, improve safety and livability, reduce isolation, support family structures, and facilitate access to mainstream resources for special needs populations.

- Objective 1: Canton Township will provide financial support to nonprofits that provide supportive services designed to support individuals and families with special needs (elderly, frail elderly, severe mental illness, developmentally disabled, physically disabled, persons with alcohol/other drug addictions, and persons with HIV/AIDS).
- Objective 2: Support programs that assist and provide services for persons with special needs to include but not limited to frail and non-frail elderly, persons with those with physical, mental, or behavioral disabilities, persons with HIV/AIDS, persons with alcohol or drug addictions needs.
